RE: Statement of Compatibility for all makes and models of Steel Tanks manufactured by Newberry Tanks & Equipment, LLC., including all:

- single-wall tanks,
- double-wall tanks,
- UL 58 underground storage tanks
- UL 142 aboveground storage tanks
- jacketed tanks,
- ACT-100®,
- Permatank®
- Non-UL storage vessels

Steel tanks manufactured by Newberry Tanks & Equipment, LLC are compatible and suitable for use with all blends fuels meeting ASTM standards, including ethanol blends from E10 to E100. All tanks are also compatible and suitable for use with blends of biodiesel from B2 to B100. Testing has been done documenting compatibility of steel by several sources including Oak Ridge National Lab sponsored by DOE in collaboration with UL and NREL, SwRI, DNV and STI (through Battelle). Test reports and other information on biofuels may be accessed on the Steel Tank Institute's website as follows:

<http://www.steeltank.com/Publications/E85BioDieselandAlternativeFuels/tabid/140/Default.aspx>

As always, if switching product service, the tank system should be properly cleaned. See STI Recommended Practice, R111, "Storage Tank Maintenance" for further information.

If you have any questions or would like additional information, please don't hesitate to contact us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brian Brinkley".

Brian Brinkley

Vice President & General Manager
